

# ANNUAL REPORT

2011-2012

Vimukti Charitable Trust (R)  
Jeenur Road Pothnal,  
Manvi Taluk, Raichur Dist

## INTRODUCTION

Dear friends,

By entering into a partnership with 'Ensemble Agissons' from France, the Trust has begun to realize a new dream and to foster a new vision, all with a view to bringing sweet smiles on the sad and depressed faces of poor children. Especially when Vimukti was all set to face fresh challenges in the sector of 'liberating children', it saw a new dawn. The summary report you have in your hands is all about the initiatives undertaken through various activities by VCT in the past one year. The report is brief; however the difference and the impact made by VCT are actually more than the records could tell. I am glad to present the activities of Vimukti at Pothnal for the past twelve months.

This is how we went about...

**1. Children's day celebration:** Vimukti Charitable Trust is indeed widening its horizons and scope to look out for a radical change in the society, by giving apt opportunities to the budding children so as to show them a way for a bright future. Due to some unavoidable and unforeseen events and programmes, it wasn't possible for Vimukti staff to organize and celebrate the children's day on 14<sup>th</sup> November itself. It was therefore postponed to 27<sup>th</sup> November. To make the day meaningful & participatory for the children the programmes were organized in Vimukti premises. About 850 children participated and profited by the programmes. All the Vimukti Para teachers and government school teachers even as Government officials like Dathappa BRC, Happan Gowda the Regional coordinator of Education Board of Manvi taluka , local leaders, SDMS presidents, VDC presidents and others were present at this function. To mark the event Vimukti distributed 'notice boards' to 14 Government schools so that children could use and display their talents by the way of writing short articles, drawings, and other educational activities. It could also provide an opportunity to improve and to develop their skills. This venture of Vimukti was well appreciated as it initiated children to various activities and made their participation livelier. Additionally there were some input-sessions to help children to know their rights and make them aware of the existing condition of our society. Questions such as: what is their role? How they are to go about it? How to be better citizens? etc were answered, reminding them at the same time that they must bloom where ever they are planted.

## 2. RIGHT TO FOOD CAMPAIGN:

Another important achievement of Vimukti was to inform people about their **RIGHT TO FOOD**. Qualified NGO'S had come to Raichur to animate social activists on various schemes of the government for the benefit of thousands of people who are deprived of the benefits of Right to food act. Two staff members of Vimukti attended this programme. It was a helpful initiative especially to know and uncover the lacunas even as the failure to make the right use of it for the benefit of the poor

people. Justice to the Act would only be done when local people benefited from the scheme. But right away it is still a far distant dream. Wall posters highlighting the programmes to be implemented, as directed by the Supreme Court regarding the “*Right Food Campaign*”, banners and other postcards as means to make the message reach far and wide to different villages, were available. Since there was co-operation on the part of the people who came forward to ask and claim for the Right to food act and maintain the level of subsistence in their families, Vimukti took up this project to fight against injustices and malpractices done to the poor especially by the intermediaries involved in the line of distribution of food stuff.

3. **TRAINING TO BE IN THE VILLAGE DEVELOPMENT COMMITTEE (VDC):** Self-help as we

know is the best help. If villages are to be developed, the villagers should themselves take the lead to do so. It is from this point of view, ‘that Village development committees’ were constituted by Vimukti and were looked upon as strong instruments of Development. They could indeed play a great role in identifying the problem and beneficiaries in the village and bring it to the notice of VCT, and thus work together for the solutions of many a problem. Accordingly, Vimukti has now 15 VDCs in 28 Villages. People are happy about the progress within the villages as good many persons have availed themselves of the government benefits through the help of VCD.

So that the VDC members in the villages to know their rights and duties as members, and also know how to tap the Government schemes, the methods they have to follow, the way to support and strengthen each others, while working for the growth of village, Vimukti organized one day training programme for 15 VDC members. The training was held in the Vimukti premises. The resource person for the training was Fr. Blaize from Chikkodi and he did succeed in making the VDC members to realize their prime duty and work for their own growth.

4. **VISIT OF DONORS! WE EXTEND A WARM WELCOME:** 1<sup>st</sup> February was a joyful day as we welcomed the

arrival of our loving friends from France; Deniel, Bernadette, Guy, Isabel, and Lily. They are all the members of the funding Agency ‘Ensemble Agissons’ (*Let’s get going together*). They were accompanied by our Capuchin friar Fr. Santa. Indeed, it was a rare occasion of joy to have them amidst us and to share and experience the joy of friendliness and togetherness. The visit lasted from 1<sup>st</sup> to 20<sup>th</sup> February 2011. It was their second visit to our project area. They visited all the Sponsored Children, their families and villages and participated in all the programmes. As they themselves

said, to them it was a fruitful visit as they could come to know the area and people they were supporting. To us it was a good interaction with the donors to know their vision and objectives regarding our project.

5. **INAUGURATIONS OF REGIONAL CHILDREN CLUBS: (Magu Nagu Yojane)**6<sup>th</sup> February dawned with a package of lot of activities for the children as Vimukti hosted the inauguration of the Children's club. There are now 34 Children clubs in 14 villages. We invited the village officials and other eminent leaders of the locality to make the day memorable. Our Guests from France too were the important guests of the day.

All the 34 clubs with a strength of 750 children with their respective club leaders joined to inaugurate the children's club. The programme began at 10.00 am in full swing, first with singing competition of patriotic songs; they were assessed by our local judges; then followed the drawing competition; mono act, dances and other activities continued throughout the day. In the evening after the initial ceremony of the lighting of the lamp, the officials and the dignitaries were felicitated. The programme came to close with the distribution of prizes to all the winners.

6. **TRAINING PROGRAMMES FOR THE REGIONAL CLUB LEADERS:** On April 1<sup>st</sup> 2011 we organized one day training for our Children club leaders. 34 club leaders were present to acquaint themselves of their role as leaders in the club. Our staff members were the resources persons. Many issues were discussed and guidelines given in order to improve their task in the club. We see Children's clubs as the principal instruments of motivating the children toward education. It is a forum to share their talents and views.

7. **HEALTH-CAMP CONDUCTED in collaboration with the Manipl Group :** As the age old saying goes 'Health is wealth'. Of the many projects undertaken by VCT (Vimukti Charitable Trust) for the welfare and up-lift of the people in Raichur region, 'Health' has been one of its primary focus, as it touches directly people's need. It is one of the ways, VCT is efficiently working to reach out to thousands of people, seeking relief in the vital human aspect of illness and thereby bring about a drastic change in the lives of people. It has instilled a ray of hope, we must say, in the lives of people who were helpless and depressed.

Modern diagnostic techniques, qualified doctors and surgeons and other advanced medical facilities are obviously beyond the reach of these impoverished people. With all these inconveniences and difficulties it would be very difficult for the indigenous people to have access to various medical check-ups and other medical facilities.

After having contacted the reputed Manipl Group, VCT personnel went around more than 45 villages creating an awareness to take some precautionary measures and avoid taking any health risks,

especially by people with heart ailments. Banners and placards were made use of as educational and informative means to make the message clear to all people. As per the survey it was noted that the majority of the people suffered from poor health and quite a few were heart patients. VCT worked hard to convey the message to all the people of different villages, to make them understand the various causes and reasons for the deterioration of health. It also took up the task of advising them to take up self-preventive ways to maintain a sound health, to have timely check-ups and to avail the government schemes that provide free treatments.

VCT organized two-day health camp for all people belonging to different villages. We acknowledge our profound gratitude to Fr. Veerus, who was instrumental in getting the doctors from Manipal Institute of Science and Technology (Bangalore). The team included 2 heart surgeons and a social worker. They worked round the clock for two days. The team was headed by an eminent person Dr. Bhaskar Semitha by name

To our surprise, altogether 280 patients from various places attended the camp; it gave a real trigger to the job of all the team members, since this great number was never expected. While doing the check-up the doctors diagnosed nearly 57 patients whose condition was rather serious and fell in the category of imminent cardiac arrest. The doctors did their best to attend to all the patients without putting the patients to any great inconvenience.

Manipal Institute was truly magnanimous in assuring to carry out free surgeries for all the 57 patients in case their condition aggravates and need immediate medical attention. 5 patients were immediately advised operation in the following week itself. Thanks to Dr. Bhaskar, who along with his team, personally carried out the surgery and restored dying people to life.

This concern for health was indeed a fruitful healing ministry taken up by VCT-Pothnal. It was the hard work and great effort of VCT personnel of Pothnal and the generous service of doctors that helped people to have access to proper medical treatment despite their poor economic condition. Vimukti Charitable Trust cannot but take the opportunity and put on record its debt of gratitude to everybody for the cooperation in making the program a great success.

8. **INAUGURATION OF TAILORING CENTRE:** The VCT which had been thinking of some remunerative programme for the employment the women of the locality, hit upon the idea of starting a tailoring centre which could be beneficial to the women and advantageous to the people of the surrounding areas. This new venture would thus serve a double purpose. First, it would provide employment to the unemployed girls and women irrespective of their religion, cast or creed and were seeking even if it is a part time job; second, the tailoring centre, specifically undertaking to stitch school uniforms of children at a low and reasonable price, help immensely the people to get the best benefit out of it. The centre in fact is undertaking the stitching of the school uniforms of all the school children who are not only in the vicinity but even far off. As per the survey, the number of men tailors outnumbers that of women in the region of Pothnal and the tailoring charges too are quite high. Vimukti, thus coming to the assistance of all girls and women who are jobless has indeed turned out to be a source of solace and support to many through this new project.

9. **ORGANIZATIONAL EVALUATION:** Any organization to run efficiently needs efficient staff, VCT does have a staff no doubt but there was a certain lack of efficiency in the sector of filed work and in the organization of activities. Therefore we thought of having an Evaluation of the staff The Director met personally every staff member to valuate the work done and instructed each and every one of them how to go about the project activities. Staff too evaluated themselves and came to know certain draw backs and inefficiency in the work entrusted to them. The whole process of evaluation and suggestion for improvement was a source of enlightenment to the staff. We hope for an improved and better functioning of the office.

10. **SNEHA JYOTHI HOSTEL:** Vimukti Charitable Trust conducts a Hostel for boys with 50 students on the roll. Its main purpose is to see to the education of poor boys unable to travel daily to the school from their respective villages. It may be said to be one of the most humanitarian work done by Vimukti as it provides not only board and lodge but also looks after the all round formation of the boys in the Sneha Jyothi Boarding. The intention is to see that the various needs of the children are met and they are enabled to bloom and prosper in future. The VCT as well helps these budding children to cope up with their education and academically produce better results. It makes use of the opportunity to shape these children as future leaders and role models; by instilling into them good values, making them realize the importance of self-discipline and urging them to make a difference in the society. The things have been looking quite positive despite the lack of finance at times; the children are seen to climb higher, grow tougher and to be successful achievers.

11. **PROTEST AGAINST CHILD LABOUR:** “Child labour” is often defined as work that deprives children of their childhood, their potential and their dignity, and that is harmful to physical and mental development

The literacy rate in Raichur district stands at a dismally low level of about 55%. But if one were to look at literacy rate of SC/STs and women the situation is far worse. Most of the SC/ST children drop out of the school and start working as child and bonded laborers. After getting socially involved in fourteen villages of Manvi & Sindhnoor Talukas, Vimukti believes that every child has a fundamental right to education and education is critical thinking, questioning and conscientization in all sectors of human development. Vimukti therefore views its work towards literacy and education as a part of a larger and integrated process of social, economic and political change and empowerment

As an initial effort it was decided to launch a campaign, though only as a small beginning, to reach out to people with a view to educating them about the evil of child labour and to motivate the parents to send their children back to school. On 19<sup>th</sup> June 2011 Vimukti organized a rally against child labour. In this all our 750 odd club-children were present. Rally began with a small in-pit session and carrying of placards as all marched through the main roads of Pothnal. The Programme proper was held at Primary health center premises. Fr. Robin Lopez and chief guests Shri Shrbuddin, Sr.Irine Martis were the speakers of the day and said that undoing the practice of child-labour is must, especially in an area where many children are deprived of the basic education. Vimukti has taken upon itself the task of bringing back children who are deprived of the basic education to school once again. The programme ended with the positive message “akshara Kalisi, shale serisi” (Educate the children enroll them in the school).

## 12. Inaugurations of Child Resource Centre at Pothnal (Library):

On April 25<sup>th</sup> 2011 Vimukti Charitable Trust, widening its scope of activities, inaugurated at Pothnal a Child-Resource Centre, meant for activities, which were not available to children earlier. Every new born child is endowed with a special gift from God and this gift has to be nurtured and developed. When we looked around we come across many unfortunate children viz., rag pickers, children working in the factory, homes etc who are not only denied the opportunity to nurture and develop their talents. They are also denied and robbed of their precious childhood. Those children are in many ways unfortunate solely due to their poor economic conditions. Their talents lie either dormant or just left unused. Vimukti wanted to concentrate on these unfortunate children and provide space for them to develop their talents. Therefore it planned to establish a Child Resource Centre to give training to these children. The Child Resource Centre provides many opportunities to nurture their talents and also gives scope to make use of their talents. In the Centre there is facility to learn musical instruments, computer, develop the art of drawing, read books, use sports materials etc. A tutor will give basic training and monitor each child’s progress. Special attention will of course be paid to less fortunate children. Children are very much attracted towards the centre and are already utilizing it fully.

**13. Remedial Teaching (Tuition Classes):** VCT considers the task of children's education as the primary and fundamental task, considering the fact that number of illiterate children is soaring high, as good many children are forced to work in fields due to one or other reason. If timely attention is not given to them their future could be jeopardized. Therefore VCT has thought of providing tuitions to children in 14 Villages, taking into account as well the right to Education. The intention is no other than helping the students to make their future bright and prosperous. VCT has appointed new Remedial teachers in 14 villages and has been now targeting to eliminate child-labour and prioritize the need of education.

**14. Training for health (Jana Arogya andolana):** As per the survey the death rate is higher in Northern Karnataka than the rest of the places due to sheer negligence for health and inefficient workings of the Primary Health Centres (PHC) in the district. VCT and likeminded NGOs therefore came together to plan how we may improve the PHCs in our place. There are a lot of facilities that can be availed from the Government but common people do not know how to have recourse to them because of the lack of awareness. Therefore on 18<sup>th</sup> and 19<sup>th</sup> of October a course was organized in Pothnal to train people in health-awareness and two of our staff members attended this training. The course included as well a survey of 5 Primary Health Centre in our Talukas. To cater to the primary health care of the poor people VCT has now put up a small structure..

**15. Thrust Area Committees of Diocesan Net work:** All the Catholic NGOs, working in the Diocese of Bellary came together to form a committee, known as, Thrust area committee. VCT has always actively involved itself in the committee being also a member the committee. On 25<sup>th</sup> June 2011 the Committee organized a work-shop on Integrated Development through empowering action. Rev. Fr. Faustine, the Secretary of KRPPC came from Bangalore to conduct this workshop. Development, he said is “a planned change to improve people”. It should take place “of all, in all areas and by all”. The work shop was a great boost to the participants to go ahead with their work of development in the area. Thrust area committee has taken a step forward in erecting at least one ration shop that works according to the norms given by the Supreme Court of India.

**16. Afforestation instead of Deforestation' Campaign** Deforestation means felling of trees whereas Afforestation is the delicate art of planting new trees. A tree is, perhaps, the most valuable gift provided to mankind by Mother Nature. It gives us what is required for living human life. Their very

birth starts with the process of providing wood, shade, fruits and oxygen. In cutting down trees, humans fail to see their purpose and by destroying trees they destroy the land itself.

A campaign was organized at Jeenoor camp of Raichur district by the Vimukti Charitable Trust to create awareness against the growing amputation of trees and of the need to preserve trees. Raichur being an area that faces scarcity of rain is prone to face extinction of trees. Besides, people cut trees as it serve them as firewood material.

“Today’s wastage is tomorrow’s shortage” was the main message of the campaign. Many campaigners had the joy of planting small saplings. Each campaigner planted two saplings on the banks of the canal as a call to protecting the environment as well. Children expressed their views through creative paintings.

### **17. Meeting of Parents (of children’s Club):**

One of the biggest blessings in the world is to have parents. They are the most important person of the society. In the words of W.H Thackray, “a parent is the name for God on the lips and in the hearts of little children. Our history has evidence that prove the significance and the role of the parents. Shivaji, M.K Gandhi etc., were what their parents made them. Abraham Lincoln wrote about his mother. **All that I am and hope to be I owe to my mother**”. Being conscious of the importance of parents and their role in the life of the children VCT on 12<sup>th</sup> of September organized a meeting of parents of our sponsored children. All the parents of twenty six children were present. VCT Director Fr. Sathish informed them that Family is the first school of a child and a parent is a clear vision of the true welfare of the family. Parents in India are often referred to as God’s representatives on earth. They are here to care and nurture the children because God himself couldn’t be there. These are the two human beings with whom their children feel close at all times irrespective of their age. He explained to the participants that they have to follow the rules and regulations of the sponsors very meticulously, which will be a help in working out purpose of sponsorship efficiently in the given situation. He concluded saying. “Give us good parents we will have a great civilization” Give us good parents; we will have a great nation”.

### **Social Action Seminar-2011: “Rights Based Approach To Empower The Powerless”**

Commission for justice peace and ecology and social action together with VCT organized a Seminar on the theme of “Right based approach to empower the powerless.” In the Key note address Fr. Chetan Lobo clarified that ‘Right based approach is not fighting with government but developing an attitude of respect

for the dignity of every person. It affirms the infinite worth of human beings and tries to break the chains that fetter human development. God has created us in his own image and likeness. But we have categorized people into rich and poor. Poverty is considered as powerlessness. Therefore our role will be empowering the powerless by mobilizing them to fight for their rights. We cannot mobilize and empower people unless and until we make some sacrifice to be with the people. Speaking next, Dr. Ruth Manorama, the famous social activist, said that Social action is the action which we do not know what action it would take. We can make the people powerful only by mobilizing them to fight for their rights. Our approach should be bottom-up rather than top-down approach. In social action we do not have any agenda but the people themselves are the agenda. We fight with the people for their rights and not for their needs.

**18. There are three main points which can change the lives of the people.**

- **Education:** It is to open our minds to the current anti social activities of our society. The formal education will not remove the social unjust ways like race, color, gender discrimination etc. Is there an education which can abolish the present social status of our society? Therefore our education should change the social face of our present condition. We all should arise and fight for our rights.
- **Agitation:** all should be agitated like Dr B. R Ambedkar, who was agitated by seeing the status and condition of his society then. We should be agitated by seeing all the injustice around in our society.
- **Organization:** it is necessary for the well being of the people. There is only way we can organize the people by mobilizing them to fight for their rights. The Church should arise and fight for the rights of the people. It should fight for the poor.

**19. Vimukti Staff's Day Out;** Vimukti staff has always a busy schedule because of the various assignments they undertake each time. They have great love and dedication for their work and see that the task given is completed. To have a small break and relax a day-out programme was fixed for the 10<sup>th</sup> of October. The staffs were extremely happy as the sun too shined brightly on that day as they together as a group visited various places like T.B.Dam, Hampi, Kishkinda water resort, etc., and had a lot of fun.. They had the joy of sharing the food which each one had prepared and brought along. It was truly a bit of "vimukti" as well for the staff.

20. **Personality development camp for children** “The good tree bears good fruit and the bad tree does not bear good fruit. The tree is known by the fruit it bears” This is the constant thought in our approach to children day in and day out. Accordingly VCT organized a three days camp for 780 children at its premises.

It was a value based education to enhance the growth of every child to be creative, healthy, and enthusiastic. Different topics like, personal hygiene, cleanliness, discipline, respect for parents, importance of communion with God in and through prayer, upholding the basic rights of children, skills in Leadership, virtue of responsibility, Building self- Confidence etc. were dealt with

These topics were handled by experienced and well qualified resource persons. Children took a lot of initiative to ask questions, and to clear their doubts. They were attentive to the input sessions so as to gain knowledge. They also expressed satisfaction and gratefulness since no one in the past had enlightened them so much on various issues. The camp gave the children a new vision to live with.

21. **Sports And Games For Children** ‘All study and no play makes life dull, not gay’. The sports and games are important to every child to grow physically as well as psychologically. The principle of “sound mind in a sound body” is rightly applicable, if due importance is given to the sports and games as well. Accordingly a sport’s day’ was organized by VCT for children at its premises. On this day, various games were conducted in which most of our 750 children took part and won lovely prizes. Enthusiasm and Zeal of these students was reflected on their faces.

## 22. Cultural Day For The Children:

A cultural day for the children was organized in its premises by VCT to promote the display of their talents and inspire other children to come forward to do the same, overcoming stage fear. Children were given time to prepare and to show their various talents. There was a lot of enthusiasm and one could only admire the way they went about performing on the stage. They sang songs, danced with full vigor, shared jokes and stories, and performed mimicry. It was a

successful event, organized systematically by Vimukti staff under the direction of the Fr.Sathish

**Conclusion:**

*Whole world is before those who dream to achieve.* Vimukti animators have almost the same feelings as we submit this report. We don't boast of changes and growth in all levels but are happy to have done a little of developmental work. We desire to do more for when the desire ends development will end as well; but we know for ages the desire has never seen an end. VCT in Pothnal has created an impact among the children in the fields of Welfare and Social Development. With eight staff working in 14 villages are spreading our identity through works of interventions for development. While we have a long way to go, we feel confident that with the support of Ensemble Agissons we can achieve our goals. I sincerely thank the President, Mr. Daniel Helbert and all Trustees without whose support and encouragement the achievement would not have borne expected fruits. As I present this short report I naturally expect their continued assistance in future as well.

We successfully complete two years of work, we remain grateful to Fr. Alwyn Dias, Fr. Santa Lopes for their wholehearted support and encouragement. God loves the Cheerful giver. Vimukti is blessed with good donors and well-wishers to whom we remain ever grateful. The financial support and timely guidance has helped us to reach our goal.
