Joy of Completion

Hanumantha From Karegudda Plan and Process

**Hanumanthappa with family & their new House**

“Looking back my living condition in the past I can say it was a pathetic condition. My eldest son is handicapped due to polio and I underwent heart surgery last year. I live in a small old

house with my six children of them five are girls. With the children growing, it was difficult to live in a single room house, adding to it the floods of last year almost demolished my house. Then came Vimukti to our rescue, they constructed and gave a new house for our family. I also added some amount to make the house little bigger. Now I am very happy and more than me the children are happy to live in this house. We are ever grateful to Vimukti for their support.”

- Hanumantha, Thadkal

“I am Mariamma a HIV victim. My husband died two years back and I am alone to take care of my five children. I had to work and meet all the needs of the family. The recent floods devastated our life. The small house, which I had, was at the verge of falling. Vimukti came to my rescue. They built and gave me a new strong house where I am living now. I need not worry about the future of my children regarding the house. Even if I die, my children have a house to live. God bless all the Vimukti People”

- Mariyamma, Markumdinni
